

Billing update for physical, occupational, and speech therapy providers

Summit Community Care is a joint venture formed between the Arkansas Provider Coalition, LLC and Anthem Partnership Holding Company, LLC, a wholly owned subsidiary of Anthem, Inc. The health plan is live as of March 1, 2019.

Previously, the state of Arkansas required physical, occupational and speech therapy providers bill with CPT codes deactivated by CMS/CPT in January 2017.

Currently, Summit Community Care uses the coding guidelines, definitions and direction provided in the CPT manual to process claims and can only accept HIPAA-compliant codes. Therefore, we will deny all sunset or deactivated therapy codes as invalid — If a provider bills Summit Community Care using inactive CPT codes, the claims will not be paid.

The inactive CPT codes are:

- 97001-97003
- 92506

Refer to the current CPT manual on the CMS website for appropriate codes according to levels of service. For complete details on claims submissions and billing, consult the provider manual by visiting www.summitcommunitycare.com/provider > *Provider tools & resources* > *Provider Manuals and Guides*.
