

Listen now! Webinar recording available from Summit Community Care for network providers on SBA loans and other federal relief programs in response to COVID-19

We are committed to helping care providers learn how you can secure resources to support yourselves and your business during the COVID-19 crisis. On April 30, 2020, we hosted a webinar to share information and resources with network providers regarding opportunities to access loans through the U.S Small Business Administration (SBA) and other federal programs in response to the economic impact of COVID-19 on care providers that are also small employers.

The federal *Coronavirus, Aid, Relief and Economic Security (CARES) Act* included an initial \$350 billion [Paycheck Protection Program](#) that provides 100% federally guaranteed loans to small employers. These loans may be forgiven if borrowers maintain or restore their payrolls to pre-COVID-19 levels. On Monday, April 27, 2020, the SBA resumed accepting applications for PPP loans in response to an additional \$320 billion added to the program in recent days.
