

## ***Pharmacy Hot Tip: Over-the-Counter Preferred Products***

To avoid additional steps or delays at the pharmacy, consider prescribing preferred products to your Summit Community Care patients whenever possible, as patients on nonpreferred products may experience a pharmacy claim rejection. Prior authorization may apply to select preferred products. Coverage should be verified by reviewing the *Over-the-Counter (OTC) List* on the Summit Community Care provider website at <https://provider.summitcommunitycare.com>
