COVID-19 information from Summit Community Care

Summit Community Care is closely monitoring COVID-19 developments and how the novel coronavirus will impact our customers and provider partners. Our clinical team is actively monitoring external queries and reports from the Centers for Disease Control and Prevention (CDC) to help us determine what action is necessary on our part.

For additional information, reference the *COVID-19 Updates* page on our [website](#).

ARPEC-0579-20

Notifications on the Availity Portal

Summit Community Care is now using the *Notification Center* on the Availity* Portal home page to communicate vital and time sensitive information. You will see a *Take Action* call out and a red flag in front of the message to make it easy to see new items requiring your attention.

We will use the *Notification Center* to update your organization if there are payment integrity requests for medical attachments or recommended training in the Custom Learning Center. Select the **Take Action** icon to access the custom learning recommended course.

There will also be a message posted in the *Notification Center* when a payment dispute decision is available. Selecting the **Take Action** icon will allow easy access to your appeals worklist for details.

Viewing the *Notification Center* updates should be included as part of your regular workflow so that you are aware of any outstanding action items.

** Availity, LLC is an independent company providing administrative support services on behalf of Summit Community Care.*

Coding spotlight: HEDIS MY 2021

HEDIS overview

The National Committee for Quality Assurance (NCQA) is a non-profit organization that accredits and certifies health care organizations. The NCQA establishes and maintains the Healthcare Effectiveness Data and Information Set (HEDIS®). HEDIS is a tool comprised of standardized performance measures used to compare managed care plans. The overall goal is to measure the value of health care based on compliance with HEDIS measures. HEDIS also allows stakeholders to evaluate physicians based on health care value rather than cost. This article will outline specific changes to the HEDIS measures as outlined by the NCQA. The changes are effective for the measurement year (MY) 2020 to 2021. It is important to note that the state health agency has the authority to determine which measures and rates managed care organizations should capture.

Digital transactions cut administrative tasks in half

Introducing the Summit Community Care **Provider Digital Engagement Supplement** to the provider manual

Using our secure provider portal or EDI submissions (via Availity*), administrative tasks can be reduced by more than 50% when filing claims with or without attachments, checking statuses, verifying eligibility and benefits, and when submitting prior authorizations electronically. In addition, it could not be easier. Through self-service functions, you can accomplish digital transactions all at one time, all in one place. If you are not already registered, just go [here](#) for EDI or [here](#) for the secure provider portal (Availity).

Get payments faster

By eliminating paper checks, electronic funds transfer (EFT) is a digital payment solution that deposits payments directly into your account. It is safe, secure and will deliver payments to you faster. Electronic remittance advice (ERA) is completely searchable and downloadable from the Availity Provider Portal or the *EDI 835* remittance, which meets all *HIPAA* mandates – eliminating the need for paper remittances.

Member ID cards go digital

Members who are transitioning to digital member ID cards will find it is easier for them and you. The ID card is easily emailed directly to you for file upload, eliminating the need to scan or print. In addition, the new digital member ID card can be directly accessed through the secure provider portal via Availity. Providers should begin accepting the digital member ID cards when presented by the member.

Summit Community Care makes going digital easy with the **Provider Digital Engagement Supplement**

From our digital member ID cards, EDI transactions, application programming interfaces and direct data entry, we cover everything you need to know in the **Provider Digital Engagement Supplement**, available on our provider website and on the secure **Availity Portal**. The supplement outlines our provider expectations, processes and self-service tools across all electronic channels Medicaid, including medical, dental and vision benefits.

The *Provider Digital Engagement Supplement* to the provider manual is another example of how Summit Community Care is using digital technology to improve the health care experience. We are asking providers to go digital with Summit Community Care no later than January 1, 2021, so we can realize our mutual goals of reducing administrative burden and increasing provider satisfaction and collaboration. Read the **Provider Digital Engagement Supplement** now and go digital with Summit Community Care.

* Availity, LLC is an independent company providing administrative support services on behalf of Summit Community Care.

Resources to support your pregnant and postpartum patients and their families

Across the nation, too many women continue to experience pregnancy-related complications and death. More than 700 women die each year in the United States as a result of complications related to pregnancy or delivery.¹ Many of these deaths are preventable. In addition, significant racial and ethnic disparities exist in maternal morbidity and mortality. For example, Black/African American and American Indian/Alaska Native women are two to three times more likely to die from pregnancy-related complications compared to White women.² Summit Community Care recognizes your role at the front lines of defense to support your diverse pregnant and postpartum patients. We want to ensure you have the right tools and resources to help your patients understand their risks and key maternal warning signs.

The Centers for Disease Control and Prevention (CDC) recently launched the **Hear Her** campaign to raise awareness of pregnancy-related complications, risks and death. The Hear Her campaign aims to increase knowledge of the symptoms women should seek medical attention for during pregnancy and in the year after delivery, such as vision changes and chest pain. Resources are available for pregnant and postpartum women, partners, families and friends, and providers.

The Hear Her campaign reminds us of the importance of listening to women. As a health care provider, you have an opportunity to listen to pregnant women, engage in an open conversation to make certain their concerns are adequately addressed and help your patients understand urgent maternal warning signs.

In addition, the Council on Patient Safety in Women's Health Care developed a tool to help women identify urgent maternal warning signs. The **Urgent Maternal Warning Signs** tool helps women recognize the symptoms they may experience during and after pregnancy that could indicate a life-threatening condition. The tool also provides additional information on the symptoms and conditions that place women at increased risk for pregnancy-related death.

If you have a pregnant member in your care who would benefit from case management, call us at **1-844-462-0022**. Members can also call our 24/7 NurseLine at the number on their member ID card.

New specialty pharmacy medical step therapy requirements

Effective for dates of service on and after January 1, 2021, the following specialty pharmacy drugs and corresponding codes from current *Clinical Criteria* will be included in our medical step therapy precertification review process. Step therapy review will apply upon precertification initiation or renewal in addition to the current medical necessity review of all drugs noted below.

The *Clinical Criteria* below will be updated to include the requirement of a preferred agent effective January 1, 2021.

<i>Clinical Criteria</i>	Preferred drug	Nonpreferred drug
ING-CC-0167	Ruxience (Q5119), Truxima (Q5115)	Rituxan (J9312)

The *Clinical Criteria* is publicly available on our [provider website](#).

AR-NL-0126-20

Transition to AIM Specialty Health small joint guidelines

Effective December 1, 2020, Summit Community Care will transition the *Clinical Criteria* for medical necessity review of CG-SURG-74 Total Ankle Replacement services to AIM Specialty Health® (AIM)* small joint guidelines. These reviews will continue to be completed by the Summit Community Care Utilization Management team.

You may access and download a copy of the AIM Small Joint Guidelines [here](#).

AR-NL-0122-20

Transition to AIM Specialty Health *Rehabilitative Services Clinical Appropriateness Guidelines*

Effective December 8, 2020, Summit Community Care will transition the clinical criteria for medical necessity review of certain outpatient rehabilitative services from our clinical guidelines for physical therapy CG-REHAB-04, occupational therapy CG-REHAB-05 and speech language pathology CG-REHAB-06 to AIM Specialty Health® * *Rehabilitative Service Clinical Appropriateness Guidelines*. These reviews will continue to be completed by the AR utilization management team.

Access and download a copy of the current and upcoming guidelines [here](#).

* AIM Specialty Health is an independent company providing some utilization review services on behalf of Summit Community Care.

FDA approvals and expedited pathways used – new molecular entities

Summit Community Care reviews the activities of the Food and Drug Administration's (FDA) approval of drugs and biologics on a regular basis to understand the potential effects for our providers and members.

The FDA approves new drugs and biologics using various pathways. Recent studies on the effectiveness of drugs and biologics going through different FDA pathways illustrates the importance of clinicians being aware of the clinical data behind a drug or biologic approval in making informed decisions.

Standard review	The standard review process follows well-established paths to make sure drugs/biologics are safe and effective when they reach the public. From concept to approval and beyond, FDA performs these steps: reviews research data and information about drugs and biologics before they become available to the public; watches for problems once drugs and biologics are available to the public; monitors drug/biologic information and advertising; and protects drug/biologic quality. Follow this link to learn more about the standard review process.
Fast track	Fast track is a process designed to facilitate the development and expedite the review of drugs/biologics to treat serious conditions and fill an unmet medical need. Follow this link to learn more about the fast track process.
Priority review	A priority review designation means FDA's goal is to take action on an application within six months. Follow this link to learn more about the priority review process.
Breakthrough therapy	This process is designed to expedite the development and review of drugs/biologics which may demonstrate substantial improvement over available therapy. Follow this link to learn more about the breakthrough therapy review process.
Orphan review	This refers to the review of drugs that demonstrate promise for the diagnosis and/or treatment of rare diseases or conditions. Follow this link to learn more about the orphan drug review process.
Accelerated approval	These regulations allowed drugs/biologics for serious conditions that filled an unmet medical need to be approved based on a surrogate endpoint. Follow this link to learn more about the accelerated approval process, follow this link .

Update to reimbursement policy usage

Reimbursement policies serve as a guide to assist you with accurate claim submissions and outline the basis for reimbursement if services are covered by the member's Summit Community Care benefit plan. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis, as well as to the member's state of residence. Covered services do not guarantee reimbursement unless specific criteria are met.

You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claims submissions. Services should be billed with CPT® codes, HCPCS codes and/or revenue codes. The codes denote the service and/or procedures performed. The billed code(s) are required to be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our policies apply to both participating and nonparticipating providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Summit Community Care may:

- Reject or deny the claim.
- Recover and/or recoup claim payment.
- Adjust the reimbursement to reflect the appropriate services and/or procedures performed.

Summit Community Care reimbursement policies are developed based on nationally accepted industry standards and coding principles. These policies may be superseded by provider or state contract language or state/federal requirements or mandates. System logic or set-up may prevent the loading of policies into the claims platforms in the same manner as described; however, Summit Community Care strives to minimize these variations.

What if I need assistance?

If you have questions about this communication or need assistance with any other item, contact your local Provider Relations representative or call Provider Services toll free at **1-844-462-0022**. Provider Relations manager assignments by county are on our website at <https://bit.ly/2yEyyDf>.

Policy Update

Nurse Practitioner and Physician Assistant Services, Professional

(Effective 04/24/20)

This update is to inform you that there is now a separate and specific professional reimbursement policy to reference for Nurse Practitioner and Physician Assistant Services.

Summit Community Care continues to allow reimbursement for services provided by Nurse Practitioner (NP) and Physician Assistant (PA) providers. Unless provider, state, federal or CMS contracts and/or requirements indicate otherwise, reimbursement is based upon all of the following:

- Service is considered a physician's service
- Service is within the scope of practice
- A payment consistent with the NP and PA contracted Fee Schedule Rates

Services furnished by the NP or PA should be submitted with their own NPI.

For additional information on the Nurse Practitioner and Physician Assistant Services professional policy, visit <https://www.summitcommunitycare.com/provider>.
