Medicare and Commercial third party bypass lists

Medicare as primary/Summit Community Care as secondary
When a member has dual coverage through Medicare and Medicaid, Medicare will be primary. For eligible members with dual Medicare and Medicaid coverage, Summit Community Care maintains a *Medicare Third Party Bypass List* that identifies service codes for which no third-party liability (TPL) information will be required.

Commercial insurance as primary/Summit Community Care as secondary
When a member has dual coverage through a Commercial insurance entity and Medicaid, the Commercial insurance will be primary. For eligible members with dual Commercial insurance and Medicaid coverage, Summit Community Care maintains a *Commercial Insurance Bypass List* that identifies service codes for which no TPL information will be required.

Medicare bypass list
For the most current Medicare bypass list, please refer to the CMS website at
https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched/PFS-Relative-Value-Files.html.

From the link provided above:
- Locate the file for the applicable year and quarter. Typically, there are four files per year, released quarterly (A, B, C, D). You may see a file with an R at the end indicating it was revised.
- Once you select the appropriate year file, you will get a zipped folder in the *Downloads* section.
- Within the zipped folder, find the PPRRVU file with year and date included (typically the last Excel file in the list).

PPRRVU19_JUL.csv	Microsoft Excel Comma S…	322 KB	No
PPRRVU19_JUL.txt	Text Document	352 KB	No
PPRRVU19_JUL.xlsx	Microsoft Excel Worksheet	1,596 KB	No
RVU19C.pdf	Adobe Acrobat Document	129 KB	No

Once you open the Excel file, the Status Codes are listed in column D by code. Within the zipped folder, you will also find a PDF file that describes what each of the fields in the RVU file means.

Relative value units status codes
- I — not valid for Medicare purposes; Medicare uses another code for reporting of and payment for these services
- N — noncovered services; these services are not covered by Medicare

Summary of services — Medicare and Commercial bypass list

The following services are included on both the Medicare and Commercial insurance bypass lists. Please note that Summit Community Care may retroactively review these services and requires providers to maintain TPL information.
